C1S Protective cover | Schutzcover

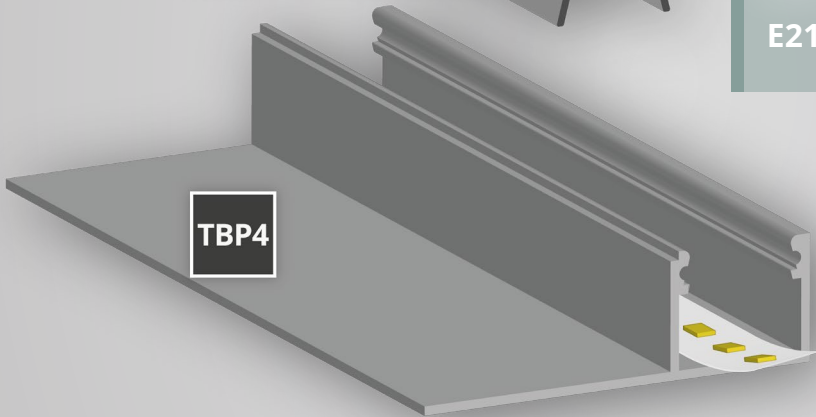

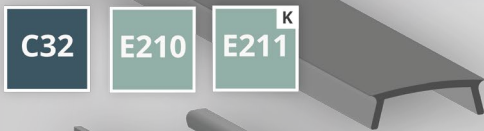

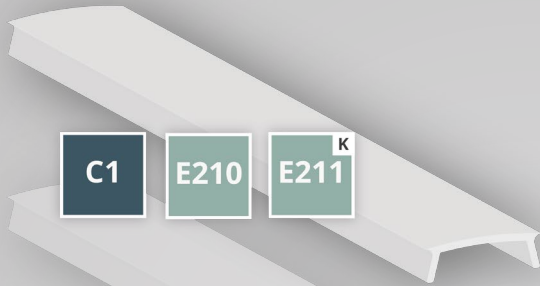

14,23 mm x 11,26 mm

500 cm **8600065**

The protective covers C1S and C10S soft are clicked into the aluminium profile for protection after the installation of drywall and tile profiles. The high-quality soft PVC is very robust and withstands the pressure of filling/plastering or painting. The protective cover prevents putty, glue, sealing material, silicone or paint from penetrating into the interior. Then the protective cover is removed, cleaned and is reusable several times over. Finally, the cover (PC) can be inserted into the profile.

Die Schutzcover C1S und C10S soft werden nach der Montage von Trockenbau- und Fliesenprofilen in das Alu-Profil zum Schutz eingeklickt. Das hochwertige Soft-PVC ist sehr robust und hält dem Druck beim Verspachteln/-putzen oder Streichen stand. Das Schutzcover verhindert, dass Spachtelmasse, Kleber, Dichtmaterial, Silikon oder Farbe in den Innenraum eindringt. Danach wird das Schutzcover abgenommen, gereinigt und ist vielfach wiederverwendbar. Abschließend kann die Abdeckung (PC) in das Profil eingesetzt werden.
